

# Tri-Boro Shelving Features

Tri-Boro Shelving is manufactured in the widest range of sizes available in the industry. When used in combination this array of sizes can meet the most demanding of custom applications.

The flanged shelf is manufactured from cold rolled steel and has "Triple Bends" on all four sides for incomparable strength.

Standard shelves are manufactured in 24", 30", 36", 42" and 48" widths, and 9", 12", 15", 18", 24", 30" and 36" depths.

All Tri-Boro steel components receive a rust resistant phosphatized cleaning for better paint adhesion and durability. A custom, quality blended powder coat paint is applied "Electro-Statically" and then baked on in a continuous curing oven for lasting durability and outstanding appearance. This process is the latest innovation for the integrity of paint surface and the protection of our environment.

## STANDARD FINISHES

Tri-Boro's standard finish is Gray. However, all colors shown are available for a small additional charge. The choice of an alternate color may create a slight delay in delivery.

## SHELF TYPES

### Flange Shelf

Class 0 – No Re-Bar

Class 1 – 1 Re-Bar

Class 2 – 2 Re-Bar

**Flange Shelves** are available in both 20 GA. and 18 GA. material thickness. Class 0 is designed for applications that do not require extreme load bearing strength.

The addition of 1 Re-Bar will increase bearing strength by about 50%. The addition of 2 Re-Bars will increase the bearing strength by over 100%. Please see the chart on page 7 for exact load bearing strengths.

### Boxer Shelf

**Boxer Shelves** are constructed of 22, 20 or 18 gauge steel with full welded box formation in front and back of the shelf and have formed channels on both ends. All corners are lapped and welded for additional strength.

The box formation is welded on a 6" center minimum to provide integrity the entire length of the box. All shelves have a box profile height of 1-1/4". All boxer shelves accommodate either clip or nut and bolt connection to the upright.

Please see the chart on page 7 for exact load bearing strengths.

Tri-Boro's "Boxer"™ industrial grade steel shelving features a welded tubular box design with lapped and welded seam corners.

## POST TYPES

Tri-Boro manufactures rigid roll formed "Box" and companion "Offset Angle" type posts.

The box post provides unobstructed shelf access. One box post takes the place of two angle posts at the front of a shelving unit.

The offset angle post reduces shelf accessibility by 1 inch per end, although the field length is nominal to the dimension ordered.

Box style post heights range from 3'1" to 11'3". Offset Angle heights range from 3'1" to 12'3".

Both styles are manufactured in 1 foot increments. All posts are 14 gauge steel. Shelves can be either clipped or nut & bolted to the post.

Box Post Holes 1-1/2" O.C.

Offset Angle Post Holes 1-1/2" O.C.

Rolled Formed Angle Post Holes 1" O.C.

Government Post Holes 1" O.C.

Offset Angle Post Holes 1" O.C.

## Heavy Duty Box Style and Heavy Duty Offset Posts

Heights range from 7'3" to 28'. Both styles are manufactured in 1 foot increments. All posts are standard 13 gauge (Also available in 12 gauge). Shelves can be either clipped or nut and bolted to the post.

## NUT & BOLT SHELVING BACK AND SIDE REQUIREMENTS

To make the following heights of units follow the chart below to determine number and dimensions of components.

Shelving Height	# of Backs or Sides	Shelving Height	# of Backs or Sides
5' 3"	= 2 Pieces 39"	10' 3"	= 3 Pieces 45"
6' 3"	= 2 Pieces 39"	11' 3"	= 3 Pieces 51"
7' 3"	= 2 Pieces 45"	12' 3"	= 3 Pieces 51"
8' 3"	= 2 Pieces 51"	14' 3"	= 4 Pieces 45"
9' 3"	= 3 Pieces 39"		

# Tri-Boro Sway Braces, Label Holders, Reinforcements, Shelving Clips & Hardware

## SWAY BRACES

Made of 1" wide hot-rolled 12 gauge steel strip with safety edges. Ends are radiused and punched for attaching to front and rear post.

Model Number	Shelf Size	Wt.
SB18	12"-18"	1.0
SB36	24"-36"	2.0
SB48	42"-48"	3.2

### General side/back & sway brace info:

When supplying open shelving units, one pair of braces for each side/back location may not always be sufficient. The following is our recommended sway brace to unit height chart. Note: Common sides and backs share sway bracing.

Post height up to 7'	<b>1 pair of sway braces</b> for each side/back location
Post height from 8' to 10'	<b>2 pair of sway braces</b> for each side/back location
Post height from 11' to 13'	<b>3 pair of sway braces</b> for each side/back location
Post height from 14' to 16'	<b>4 pair of sway braces</b> for each side/back location

1-1/2" O.C. (COP15)

1" O.C. (COP1)

### CLIPS FOR OFFSET/BOX POSTS

14 gauge (.078 thick) steel zinc plated

Model Number	Wt.
COP15	1 oz.
COP1	1 oz.

## LABEL HOLDERS

Made of cold-rolled steel. Punched on ends for attaching to front edge of shelves. The top and bottom edges are folded over to accommodate labels approximately 1" high.

Model Number	Size	Wt.
LH24	24"	.2
LH30	30"	.3
LH36	36"	.4
LH42	42"	.5
LH48	48"	.6

NOTE: Welded Label Holders Available for flange shelves only.

## REINFORCEMENTS

A 1" x 1" angle made of 12 gauge steel used to reinforce front and /or back of shelf.

Model Number	Size	Wt.
RB18	18"	.7
RB21	21"	1.0
RB24	24"	1.4
RB30	30"	1.7
RB36	36"	2.0
RB42	42"	2.4
RB48	48"	2.7

## ROUNDHEAD BOLTS WITH HEX NUTS

(Sold in boxes of 100)

Model Number	Size	Quantity	Wt.
HB63	1/4" x 5/8"	100	2
HB100	1/4" X 1"	100	2.5
HB125	1/4" X 1-1/4"	100	3

# Tri-Boro Angle Sways & Splices

## ANGLE SWAYS (For 1" on Center Offset and Nut & Bolt Shelving)

A 5" x 5" L-shaped bracket that is made of 11 gauge steel with holes punched 2" on center. Gives 5 points of fastening between shelf and upright to prevent lateral movement when sway bracing is not used.

Model Number	Size	Wt.
AN55	5" x 5"	.02

## OFFSET ANGLE SWAYS (For 1-1/2" on Center Shelving)

A 5" x 5" L-shaped bracket made of 11 gauge steel with one leg punched on 2" centers and the other punched 1-1/2" on center. Gives 5 points of fastening between shelf and upright to prevent lateral movement when sway bracing is not used.

Model Number	Size	Wt.
OAS55	5" x 5"	.2

## SPLICE (For Rolled Formed Post)

Made of hot-rolled 12 gauge steel. Punched 2" on center for the joining of two roll form posts. Dimensions of splice are 1" x 1" x 7".

Model Number	Wt.
SP 117	.32

## OFFSET SPLICE

Made from cold-rolled 12 gauge steel. Punched on 1-1/2" and 1" on centers from either end for the joining of two offset posts. Dimensions of splice are 3/4" x 1" x 5".

Model Number	Wt.
OSP115	.18
OSP1	.18

1-1/2" O.C.

1" O.C.

## BOX POST SPLICE

Made from cold-rolled 12 gauge steel. Punched on 1-1/2" and 1" on centers from either end for the joining of two box posts.

Model Number	Wt.	Dimensions
OSP 115	0.2	4.5" x 1.775"
OSP 1	0.2	5.5" x 1.775"

## HEAVY DUTY OFFSET POST SPLICE

Made from cold-rolled 12 gauge steel. Punched on 1" on centers from either end for the joining of two heavy duty offset posts.

Model Number	Wt.	Dimensions
HDOSP 1	0.4	7" x 1.875" x 1.223"

## HEAVY DUTY BOX POST SPLICE

Made from cold-rolled 12 gauge steel. Punched on 1" on centers from either end for the joining of two heavy duty box posts.

Model Number	Wt.	Dimensions
HDBSP 1	0.4	7.5" x 1.775"

# Tri-Boro Shelving Bin Fronts

## BIN FRONTS (Nut and Bolt Shelving)

Made of cold rolled  
18 gauge steel.

Top edge is formed into a hem. Bottom is flanged to rest on shelf and punched to provide means of attaching to post.

Model Number	Size H x W	Wt.
BF224	2" x 24"	.9
